## **New Jersey Division of Revenue Available Methods of Electronic Funds Transfer (EFT) Payments**

Certain taxpayers are qualified for and required to remit payments through the State of New Jersey, Division of Revenue's Electronic Funds Transfer (EFT) Program. P.L. 1992, c.140 requires taxpayers with a prior year's liability of \$10,000 or greater in any one tax to remit all tax payments to the Division of Revenue using EFT.

The EFT program offers taxpayers the choice of remitting payments electronically via Automated Clearing House Credit (ACH Credit) or Automated Clearing House Debit (ACH Debit). **Please note that FED Wires or other wire transfers are not acceptable methods of EFT payment.**

The first step in meeting New Jersey's EFT requirement is to notify the Division of Revenue of the method of payment to be used. The following is a brief description of the two EFT methods offered by the Division of Revenue.

### **ACH Credit Option**

With ACH Credit, the taxpayer initiates a credit through their bank to the State's bank account for the amount of the payment. A standard format for the CCD+ addendum record has been developed for use by all states requiring payments by means of EFT. New Jersey has adopted the Standard CCD+/TXP format.

The ACH Credit option should be of interest to taxpayers already using EFT to make other business payments. To initiate an ACH Credit it is first necessary to be set up to do so with your bank. To use this option, it is **recommended that you contact your bank to determine what ACH origination services are offered and the associated costs.** As the originator of the ACH transaction, the cost of each transaction is charged to the taxpayer. An authorization form (EFT1-C) should be completed and returned indicating use of the ACH Credit method of payment. The Division's EFT Unit will then provide the necessary depositing bank account information.

### **ACH Debit Option**

The ACH Debit option allows taxpayers to place a toll free telephone call to a data collection service and provide the appropriate security and payment information. At the end of the day, the information supplied to the data collection service is used to create an ACH debit to the taxpayer's account for next day settlement. Because the State is the originator of the ACH transaction, there is no cost to the taxpayer.

Prior to the first transfer, the Division of Revenue must supply the data collection service with information about taxpayers who will be calling. Included in this information are the taxpayer identification number and the bank account numbers that payments will be processed against.

An EFT authorization form (EFT1-D) should be completed and returned indicating use of the ACH Debit method of payment. The Division's EFT Unit will then provide the calling instructions for a taxpayer to initiate payments.

**Do not attempt any EFT transaction until the Division of Revenue sends the appropriate starting instructions.**

The instructions for completing these forms are on the reverse side of this letter. For EFT assistance call (609) 984-9830 or Fax (609) 292-1777. Additional information, as well as "Frequently Asked Questions", can be found at the Division's Business Gateway at [www.state.nj.us/treasury/revenue](http://www.state.nj.us/treasury/revenue).
